

TAFFYS SUPPORT SERVICES - MAKING IT HAPPEN

MAKING IT HAPPEN

Taffys is a support services company for military, oil & gas, construction engineering, relief and mining organisations.

The company has two divisions; our Support Services Division targets specific projects of our clients in remote sites and the Distribution Division works with manufacturers to build new innovative and high quality brands across Europe, The Middle East and Africa.

Taffys Support Services assists large international clients' projects and camps operating in remote sites, war zones and developing countries. We offer bespoke solutions for our clients working with them from the initial concept of camp design to managing the entire supply chain from sourcing product to delivering door-to-door; including land, sea and airfreight.

Taffys Distribution Division identifies new, innovative and unique products, working closely with the manufacturers to develop and implement regional sales strategies. We are official distributors for REM Container Units, Dynamic Air Shelters, Concrete Canvas, Portafloor Max and Pelican Lights and Cases.

We offer a personalised service, developing open and mutually beneficial relationships. Working closely with your company and integrating with your team, we deliver outstanding results.

Official Distributors of:

PROCUREMENT EXPERTISE ACROSS MULTIPLE PRODUCT GROUPS

With over 15 years experience, we have the ability to offer multiple product groups from heavy equipment to daily consumables, anything from a bearing to a bulldozer.

In any business transaction making the right choice is critical. If you are in a remote site you need to be sure that what you order is what you get. You have to trust your supplier to deliver the products you need at the price point you require.

The Taffys team vets suppliers, ensuring they meet international quality standards. Our supplier evaluation procedures ensure all goods and services are correctly priced and conform exactly to the requirements specified.

Our specialist knowledge includes heavy equipment, structures, camp supplies, technical spares, airport equipment, vehicles and daily consumables. We have many years experience ensuring the delivery of safe, healthy and nutritionally balanced food. Through our HACCP approved facilities we have the skills and knowledge to prepare food supplies for air, sea and land transportation, even to the remotest of sites.

FREIGHT

We have a dedicated team of experts with the logistical skills needed to deliver products anywhere in the world.

Our innovative freight solutions, on time deliveries and cost effective supply strategies have built us a reputation for good service second to none in the industry. Taffys has a network of internationally renowned freight providers for air, sea and land transportation. Whether your project is a camp in a war zone, a construction site in a desert, or canteen on an offshore rig, we will find you a freight solution and get your products to you on time.

TAFFYS TOTAL SOLUTIONS SUPPLY CHAIN SERVICE

By evaluating the total supply chain and through value chain analysis we drive out cost and reduce delivery times, ensuring quality products are delivered at reduced rates within very tight deadlines on budget.

UNDERSTANDING YOUR NEEDS

We encourage the relationship approach of “One Team”. We can and do quote for business in a traditional manner; however, the “Taffys One Team” approach sees our organisation fully integrated into your project teams. By planning together, we ensure success.

Whether we are acting as a consultant, traditional supplier or procurement agent, or providing a fully integrated supply chain function, you can rely on Taffys to secure positive results for your organization.

OUR CLIENTS

Large international engineering companies, providing procurement, construction and construction management (EPC and EPCM) services for projects of all sizes.

TAFFYS

Our highly motivated team genuinely cares about your company and the outcome of each decision we make.

We thrive on solving problems and we
excel at delivering results.
“Making It Happen”
is our motto.
