

FREIGHT SOLUTIONS - BY AIR, SEA AND LAND

MAKING IT HAPPEN

Taffys has a proven track record supplying multinational companies, large military, oil and gas, construction and engineering contractors operating in remote sites.

Our reputation for innovative freight solutions, on time deliveries and cost effective supply strategies has built us a reputation for providing a service second to none in the industry.

We offer a service that truly integrates Taffys organisation with that of our clients. We encourage the relationship approach of “One Team”. We can and do act in a traditional manner as a freight handler quoting for business on a competitive basis, however the “Taffys One Team” approach sees our organisation fully integrated into your supply chain, delivering solutions and benefits by adding value into your procurement, freight and logistics functions. By planning together, we ensure success.

FREIGHT SOLUTIONS

We have a network of internationally renowned freight providers for air, sea and land transportation. Whether your project is a camp in a war zone, a construction site in a desert, or a canteen on an offshore rig, we will find you a freight solution and get your products to you on time and on budget.

We have access to AN124, B747s, IL76, AN12, and A300s amongst other cargo and passenger aircraft used for freighting product and people globally.

With years of experience sourcing product from global suppliers, we have the experience to manage the varying freight requirements for your projects, no matter the size. We can move complex heavy loads including heavy equipment, vehicles and large construction material. We can support project that have specialist handling and cargo needs, such as temperature controlled food, dangerous goods and medical supplies.

Taffys ensures all goods are checked before departure. We provide clients with an industry leading inspection, verification, testing and certification service if required. These services enable the client to operate in a more sustainable manner by improving quality and productivity, reducing risk, verifying compliance and increasing speed to market.

We provide freight options for any given location in the world. From our hubs in Dubai, Houston and Holland, we consolidate consignments and manage the sourcing and delivery door to door by land, sea or air. Our reach is extensive. We specialize in rapid deployments in war zones and developing countries.

We offer an exceptional level of service combined with competitive rates. By evaluating the total supply chain and value chain analysis we drive out cost and reduce delivery times, ensuring your consignments are delivered at reduced rates within agreed timescales.

TAFFYS FREIGHT

Whether it is by land, sea or air we will find a way of getting your consignment delivered to your operations. By using Taffys, you can be sure of a timely delivery of all your products to your project sites. We thrive on solving problems and we excel at delivering results.
